TECHNICAL SKILLS

Infrastructure & Cloud Operations

Linux (Ubuntu/Linux Server), Docker, Ansible (AWX), Device Provisioning, AWS, Azure, GCP, Fortinet Firewalls, Cisco Switches, Windows Server, VMware

Enterprise Platforms & Low-Code

Power Automate, Power Apps, Power BI, AppSheet, SQL, UiPath

Automation & Scripting

Python, Robot Framework, n8n, Make, Bash Scripting, Google Apps Script

AI Tools & Proficiency

AI-Assisted Coding, Prompt Engineering (ChatGPT, Gemini, Claude, Grok), LLM Integration via API

EXPERIENCE

Feb. 2021 - Present

C.J. Express Group Co., Ltd.

IT Infrastructure Team Lead

Responsibilities

- Led infrastructure team for new branch setups, ensuring 100% on-time operational readiness.
- Executed AWX (Ansible) pipelines to provision Linux servers and register POS Android IDs, ensuring seamless client-server integration.
- Diagnosed deployment failures by analyzing Ansible error logs and correcting configurations, minimizing DevOps escalations.
- Developed a Python automation tool for Fortinet configs, reducing setup time from 20 mins to <10 secs per branch (99% efficiency gain).
- Managed and monitored Enterprise Network (Fortinet Firewalls, Cisco Switches, Wireless APs) to resolve connectivity issues promptly.

Sep. 2020 - Jan 2021

Lazada Co., Ltd.

IT Officer System

Responsibilities

- Provided remote support, hardware/software maintenance, system improvement, and data backup for warehouse operations.

May. 2016 - Mar. 2018

Personal Business
Game Online

Assistant Game Developer & Administrator

Responsibilities

- Supported game developers by identifying, analyzing, and fixing bugs to improve gameplay experience
- Helped develop game systems, improved server performance, and maintained data backups
- Managed Facebook page, created ad campaigns, and planned marketing strategies
- Developed engaging content to grow the player community and increase user retention
